

DISCLAIMER

This publication is a result of donated time and effort from various County Drain Commissioners, representatives from the Michigan Department of Agriculture, Michigan Department of Environmental Quality, and Michigan Association of County Drain Commissioners Associate members.

The Michigan Association of County Drain Commissioners recognizes that practices of Drain Commissioner's offices vary throughout the State based on geographical differences and policies implemented by County government. Accordingly, the development of this publication is not meant to create any standards for conduct for Drain Commissioners. Unless expressly indicated, the contents of this publication do not reflect any requirements, statutory or otherwise, for the performance of duties by Drain Commissioners, but are instead recommendations and/or suggestions by the various authors of the chapters of this publication as to how those duties may be performed. This publication should not be construed to contain legal, financial or engineering advice. Each project or circumstance presents unique factors for which specific advice should be sought from the appropriate professional.
